**Compétence à acquérir :**

This course has three main aims, and these directly relate to the major themes that will be emphasized throughout. The course aims to: 1. Provide a comprehensive introduction to the key elements of the business organization, and to competing theories and models of the firm and its environment, and to provide a critical perspective on the main functional areas of management. 2. Build a foundation of knowledge on the different theoretical approaches to management and decision making. 3. Develop analytical skills to identify the links between the functional areas in management, organizations, management practices, and the business environment.
