

Behavioral Finance

**ECTS : 3**

**Description du contenu de l'enseignement :**

Introduce students to this relatively new sub-discipline of finance which incorporates insights from cognitive and social psychology into finance. In the past 20 years behavioral finance has emerged as an important stream of thinking in finance. Relaxing the traditional assumptions of finance models has proved a fruitful way of understanding financial decision-making.

Course outline:

The course will go through:

- The cognitive biases evidenced by cognitive psychologists;
- Financial anomalies and their interpretations through a behavioral finance lens;
- The implications of behavioral finance for investors and corporate financial policy.

**Compétence à acquérir :**

Relaxing the traditional assumptions of finance models has proved a fruitful way of understanding financial decision-making and anomalies found in empirical tests.
