

Macroeconomy for market participants

ECTS : 3

Description du contenu de l'enseignement :

The aim of the course is to provide students an overview of the interaction between the macro-economic environment and financial markets developments.

There are four chapters:

- I. How market participants follow and respond to the business cycle: an analytical framework
- II. The interest rate markets
- III. The stock markets
- IV. The exchange rate markets

Compétence à acquérir :

At the end of the course, the students should have a better grasp of the interactions between financial markets and macro-economic evolution of advanced economies.

Mode de contrôle des connaissances :

A presentation, including the use of visual aids and possibly a final exam (with a quiz and an essay-type question).
