

From Idea to Impact: Sustainable Venture Creation

ECTS : 3

Volume horaire : 18

**Description du contenu de l'enseignement :**

This experiential course introduces students to the entrepreneurial process of designing and validating sustainable ventures. Through teamwork, creativity, and analytical rigor, students will transform ideas into viable and impactful business models. They will learn to identify opportunities, validate customer needs, design value propositions, test business models, and effectively communicate their project to investors and partners. Course objectives:

- Understand the entrepreneurial process from idea to pitch;
- Identify, analyze, and validate business opportunities;
- Develop teamwork, leadership, and communication skills in an entrepreneurial context;
- Apply financial, strategic, and marketing principles to a concrete project;
- Present a viable, sustainable, and impactful business concept.

This course isn't on Moodle. **1 Introduction & Team Building** -- course overview, team formation, expectations. Topic :

- Team charter.

- Market analysis report;
- Pricing strategy memo.

**6 Public Speaking, Pitch Preparation, Final Oral Presentation** storytelling, visuals, and delivery, venture pitch before jury.

Topic :

- Pitch deck rehearsal;
- Final pitch + executive summary.

**Compétence à acquérir :**

By the end of the course, students will be able to:

- Generate and evaluate business ideas with social and economic impact;
- Conduct basic market and customer research;
- Design a value proposition and test it through feedback;
- Develop a financial and strategic roadmap;
- Pitch a coherent venture project before a jury;
- Reflect on personal growth and entrepreneurial mindset development.

**Mode de contrôle des connaissances :**

- **Component: Individual Participation. Description:** Preliminary pitch with feedback. **Weight:** 20%
- **Component: Final Oral Pitch. Description:** Final team presentation before jury. **Weight:** 60%
- **Component: Written deliverables. Description:** Lean Canvas, market study, 5-year projection, executive summary. **Weight:** 20%

The numerical grade distribution will dictate the final grade. The passing grade for a course is 10/20. **Class participation:** Active class participation - this is what makes classes lively and instructive. Come on time and prepared. Class participation is based on quality of comments, not quantity. **Exam policy:** Unexcused absences from exams or failure to submit cases will result in zero grades in the calculation of numerical averages. Exams are collected at the end of examination periods.

**Attendance:** Attendance is mandatory. Students are expected to attend all classes, arrive on time, and stay for the entire session. Repeated absences or lateness may affect the final grade. **Class Participation** Active participation is encouraged, as it contributes to making classes more engaging and instructive. Students are expected to come prepared and contribute thoughtfully to discussions. When participation is part of the course assessment, it is evaluated based on the quality of contributions rather than their quantity. **Exam Policy** Students are not allowed to bring any materials into exams, except those explicitly authorized by the instructor. Unexcused absences from exams or failure to submit assigned cases will result in a grade of zero when calculating final averages. All exams must be submitted at the end of the examination period.

**Communication and Grading** All questions or concerns regarding grading or course policies must follow the official procedures. No direct negotiation with instructors about grades or assessments is permitted. Be aware of the rules in Université Paris Dauphine about plagiarism and cheating during exams. All work turned in for this course must be your own work, or that of your own group. Working as part of a group implies that you are an active participant and fully contributed to the output produced by that group.
