

Accounting and Financing Reporting

ECTS : 6

Volume horaire : 36

Description du contenu de l'enseignement :

The aim of the course is to allow students to read and understand financial statements of corporations and groups.

This course should be of interest to all students considering applying to a master degree in accounting, as well as managers and investors who wish to understand and properly read financial statements.

It will help students gain a deeper grasp of accounting after the course Accounting 1, focused on fundamentals.

During 12 weeks and 3h per week, it will develop :

- Relativity of financial figures : accounting principles, options and accounting policies, bookkeeping, under different accounting standards (PCG / IFRS);
- Financing operations;
- Statement of cash flow;
- Introduction to consolidation. This course is on Moodle.

1-2

Chapter 1 - Accounting reminders

Accounting methods and principles. Current operations, from bookkeeping to financial statements

3-4

Chapter 2: adjusting entries at the end of the financial period

Periodic inventory system, depreciation, amortization, impairment and provision, accruals and prepayments

5

Chapter 3: financial statements presentation

Balance sheet, income statements and notes. French format

6-7

Chapter 4: accounting standards normalization and international standards

Accounting standards setting, history and institutions. Focus on some IAS / IFRS standards: fair-value, impairment, leasing contracts, financial instruments

8

Mid-term exam

9-10

Chapter 5: booking of financing operations

Setting-up of a company, capital increase, net income appropriation, bonds

11

Chapter 6: cash-flow statement

Drawing up and analysis of a cash-flow statement

12

Chapter 7: introduction to consolidation

Consolidation scope: control and consolidation methods. Acquisition methods, equity method. Acquisition goodwill

13

Final Exam

Compétence à acquérir :

By the end of the course, students will be able to:

- Read financial statements they can build;
- Interpret the documents in accordance with their specific accounting standards (French and international);
- Assess the validity of accounting information provided to users.

Mode de contrôle des connaissances :

- A written assignment (50%) makes the continuous assessment mark;
- Final written exam (50%).

Basic calculators are allowed in examinations.

The numerical grade distribution will dictate the final grade. The passing grade for a course is 10/20.

Attendance

Attendance is mandatory. Students are expected to attend all classes, arrive on time, and stay for the entire session. Repeated

absences or lateness may affect the final grade.

Class Participation

Active participation is encouraged, as it contributes to making classes more engaging and instructive. Students are expected to come prepared and contribute thoughtfully to discussions. When participation is part of the course assessment, it is evaluated based on the quality of contributions rather than their quantity.

Exam Policy

Students are not allowed to bring any materials into exams, except those explicitly authorized by the instructor. Unexcused absences from exams or failure to submit assigned cases will result in a grade of zero when calculating final averages. All exams must be submitted at the end of the examination period.

Communication and Grading

All questions or concerns regarding grading or course policies must follow the official procedures. No direct negotiation with instructors about grades or assessments is permitted. Be aware of the rules in Université Paris Dauphine about plagiarism and cheating during exams. All work turned in for this course must be your own work, or that of your own group. Working as part of a group implies that you are an active participant and fully contributed to the output produced by that group.
